INSTRUCTIONS TO PART TWO

Note: Non-residents and part-year residents shall use Oklahoma Source Income for lines 1 through 3.

Corporations shall use Oklahoma Taxable Income on lines 1 through 3 and adjust the quarterly due dates as needed.

- Line 1 - Nonrecurring income should be entered as follows: Enter 25% of such income, plus 25% for each quarter already passed, in the quarter the income was received. Enter 25% in each of the remaining quarters.
- Line 2 - Columns B, C, D, and E - Enter Oklahoma adjusted gross income less nonrecurring income divided by 4.
- Line 3 - Total Oklahoma adjusted gross income should equal form 511, line 14 or form 511NR, line 29.
- Line 4 - Total percentage (Columns B, C, D & E) must equal 100%.
- Line 5 - This is from form 511, line 44 or form 511NR, line 61.
- Line 6 - Total of all Oklahoma credits, refundable and nonrefundable.
- Line 10 - You are considered to have paid one-fourth of your withholding on each payment due date unless you can show otherwise. Estimated tax must be entered in the quarter in which it was paid (ie. Column B, payments made by 4/15; Column C, payments made 4/16 through 6/15; Column D, payments made 6/16 through 9/15; and Column E, payments made 9/16 through 1/15 of the following year). Payments made after the due date of the fourth quarter estimate January 15th, shall not be included on this line as an estimated tax payment, but shall be used in the underpayment worksheet as a prepayment of tax (see instructions for Part III). Include in the first quarter any overpayment of tax from your previous tax year's return that you elected to apply to this year's estimated tax.
- Line 19 - Enter total penalty and interest here and on form 511 or form 511NR.

INSTRUCTIONS TO PART THREE

In the first line of each quarter, Part Three, Column C, enter the required payment from Part II, line 9. Then complete each line across before proceeding to the next line. Column C in each quarter must be brought to zero, unless all payments have already been applied, before proceeding to the next quarter.

Column A - Enter the date the estimated tax payment(s) was actually paid. Estimated tax payments and withholding payments which are paid on or before the quarterly due date are considered timely paid; therefore, the date is preprinted on the form. Any balance due, paid with your tax return, is considered a payment for this purpose and should be listed, using the date you filed your return or the original due date, whichever is earlier.

Column B - Enter payments according to the date paid or deemed paid, the earliest date of payment being applied first. Only use the portion of a payment necessary to bring the balance due to zero.

Withholding payments are deemed paid on the quarterly due date(s). Enter on the withholding line tax(es) withheld, on or before the quarterly due date, that have not been applied to a previous quarter.

Enter on the estimated tax line estimated tax payments paid on or before the quarterly due date, which have not been applied to a previous quarter.

Enter on the tax payment line(s) any payment made after the quarterly due date. If more lines are needed for tax payments, list each payment separately on an attached schedule using Columns A through E.

Column C - Compute the balance due after each payment. If there are no payments entered on the withholding and estimated tax lines, bring the required payment down to the estimated tax line in Column C and Complete Columns D & E.

Column D - Column C balance, for each line, is considered past due until the next payment is made. Compute the number of days past due from the date of this payment until the date of the next payment or the original due date of the return, if no payment is made.

Column E - $\text{Column C} \times \frac{\text{Number of days in Column D}}{\text{divided by 365}} \times 20\%$ Penalty 5% + Interest 15% = 20% per Annum.
